PRICAUTIONS TAKEN TO PRE-LAT ANOTHER DISASTER.

State Architect Thinks the West End of Valuable Records May Be Saved.

ALBANY, March 30.-While firemen re still pouring tons of water into the ins of the western end of the State Capiof to-day employees in departments carried away. the east end, which were not touched and make the unburned part of the struc- half an hour."

and make the unburned part of the structure comfortably habitable.

A dozen important State departments are scattered in private apartments around Washington avenue and State street; others that bore the brunt of the fire, like the State Library, have not been able to resume business. Bills were introduced in the Legislature to-day for an appropriation of \$100,000 to make immediate repairs to the building and for the tearing down of walls believed to be in danger of falling.

John Fulton, the inspector of public buildings for Albany, has cleared the houses directly opposite the Capitol

A dozen important State departments are scattered in private apartments around Washington avenue and State Ekeker, who had been employed as butler in the Einstein home.

"Did you know this stuff had been stolen?" the Magistrate asked Grauvogel through an interpreter.

Detective Van Twistern here said that Grauvogel had informed him that he had expected to be arrested. He carried a suitcase when he went to the Einstein home. In the case was linen.

"Why did you carry the suitcase?" the Magistrate inquired.

Through the interpreter Grauvogel said: "I knew my conductives not right soil." I knew my conductives not right soil. The work of the molecular conductives and the private of the private in the Einstein home.

"Did you know this stuff had been stolen?" the Magistrate asked Grauvogel through an interpreter.

"No," the prisoner responded.

Detective Van Twistern here said that Grauvogel had informed him that he had a suitcase when he went to the Einstein home.

"Why did you carry the suitcase?" the Magistrate inquired.

Through the interpreter Grauvogel said: "I knew my conductives not right soil by the conductive of the conduct

FURTHER EVIDENCE AS TO ASCH BUILDING DISASTER.

Building Superintendent Miller Not Yet Ready to Discuss Causes—A Suggestion From the Fire Marshal The Relief Fund Is Now Nearing \$00,000.

Rudolph P. Miller, Superintendent of Buildings, was at his office part of yesterday morning and at 2 o'clock left to make visit at Borough President McAneny's office in the City Hall. Mr. Miller said the Washington place fire until he had become acquainted with conditions. He said that of late he had been allowing the Fire Department to do most of the inspection of fire escapes on loft and factory buildings. The reports were turned over to the Building Department and changes ordered in such buildings as were found not in compliance with the law.

It came up yesterday morning in the investigation being held by Fire Marshal Beers that 112 operators had to pass between the thirty inch passage between the end of the tables and the dressing room wall at the Greene street side of the building to get to the passage that led to the stairs and elevators. The dressing room is fourteen feet long and beyond it extends the baseboards of apparently another partition of about the same length. Samuel Bernstein, superintendent of the Triangle Waist Company, testified that the operators at three tables had to pass through the thirty inch passage to reach the hallway to the stairway.

Other testimony showed that scraps

15.00 to 25.00-according to your cloth

We speak figuratively, of course. We refer to price. And when we say that we cut garments according to your cloth we mean that Saksmade clothes are made to fit every pocket.

It is true that Saks-made clothes range between 15.00 and 45.00. It is also true that Saks-made clothes between 15.00 and 25.00 receive more than their pro rata share of attention. And the man who, from necessity or choice, wants to spend from 15.00 to 25.00 for an overcoat or suit of clothes can spend it with us perhaps more profitably than he can spend it elsewhere.

He will get infinite variety as to styles and fabrics and ample price gradations. He will also get fitted. And furthermore he will get gratis that which is worth at least twenty per cent. of his purchase—that guarantee of clothes-satisfaction which is an integral part of the name of Saks.

SHOOTS WIFE AND HIMSELF. Jacob Newman and His Wife, Lena, Had

Been Quarrelling Over an Hour. Jacob Newman, a plumber, shot himself and then shot his wife, Lena. yesterday morning in a rooming house at 216 East Thirty-first street. Both were taken to Bellevue in a serious condition. Later

Mrs. Newman died there. Otto Rymiller, who has the room next to the Newmans, heard the husband come in very early in the morning and husband and wife start to quarrel. They quarrelled for more than an hour and the stars will have their entire-companies supporting them. It was voted on account of the length of the bill-to have a continuous performance from noon until 6 P. M. Seats will go on sale at the box office of the Metropolitan Opera House at 9 o'clock next Thursday morning at the regular opera prices.

Brooklyn Headquarters Unsafe.

Five members of the Grand Jury in Brooklyn yesterday paid a visit to Police Headquarters in State street and made.

This information will be forwarded to the Board of Estimate. The Commissioner interrupted his work to dictate this streem, in which he outlined the persent status of efforts to get protection for these records:

The County Clerk's records, which include the old Colonial records going back The County Clerk's records going back 250 years or more, were stored in the cellar and attic of the County Clerk's records, which include the old Colonial records going back 250 years or more, were stored in the cellar and attic of the County Court House, on destruction by fire, more than forty years the Rymiller heard a shot and a woman's scream; then another shot. He ran to the East Thirty-fifth street police station. The police found Newman lying on the floor with a bullet in her left temple. Mrs. Newman was a revolver with four empty cartridges. The police could account for only two.

Several letters were found which led the police to believe that Newman had been intending to do the shooting for some time.
